“ I first met Connie at UMC in Montgomery in 1983 when she was my Nursing Supervisor. Connie was a clear-headed, seasoned pro with a great sense of humor and an innate ability to know just what to do, especially in those most difficult of moments. We later worked together at Jackson Hospital. I did not know Connie had died until today, having viewed her name on the Alabama Board of Nursing memorial page. Dear Connie, it was my good fortune to know you during my early years in nursing and to profit from your wisdom and experience. More, though, it was an absolute pleasure to know you at all. You always had my utmost respect and affection. Godspeed, friend. Patti Austin

“ Connie,

You and I had become almost like twins these last couple of years. We knew one another's thoughts and could finish each other's sentences. I miss getting to talk to you so much more than anyone could imagine. You always said that I did so very much for you, but you did not realize what you did for me in being my friend was just as important.

I Love You My Friend,

Missy

“ Dear Galvin family,

I am very sorry to read about the loss of your dear loved one. Do you think the time will come when death will never take those that we love from us? God's word, the Bible, makes such a promise. At Revelation 21:4, Jehovah God says that, in the near future, "death will be no more". Isn't that such a comforting thought? May this scripture and the support of family and friends help you during this time.

“ *RIP dear friend. I can still see Connie coming down the stairs on Marco Road when we were teenagers. She was making one of her classic funny faces, and calling out to her sister, Brenda ("Pookie"). Years later we were in the charter staff that opened University Medical Center (Baptist East). We also worked together at Jackson's. Memories and "Galvin stories" flood my mind now, and will forever bring a chuckle or smile. Thanks girl, for your friendship!!*
