“ I work at the Fire Department at Maxwell and worked occasionally with Mr. Thoroughman when they needed to pull guys from the floor to work the alarm room. Most of our communication however was done over the radio during emergencies or over the phone. What I can say without a doubt is Mr. Thoroughman cared about doing his job well. One of the times where the alarm room was short, I had to cover the first few hours of the night shift. Thoroughman was getting off, and even though he had already clocked out, he spent the next several minutes explaining things to me, and even left his phone number and told me to call him (in the middle of the night) if I had any questions at all. This was way above and beyond what he was required to do, and it left an impression on me to this day. My thoughts and prayers go out to his loved ones.

“ Barb & family, Condolences on your loss, within everything I learned about Jeff, first, I knew he was a dedicated family man- he would always display great enthusiasm when speaking about any of you...he loved telling me about his grandsons involvement playing soccer!...after a decade or more of working together I got to know him a bit...he liked to help others & went above & beyond in his own duties- I related to his general approach to life, it was comforting for me...he always allowed me to borrow his truck when I needed to haul something about!...he is a friend I will miss very much for many reasons..God bless your family & may Jeff rest in peace..
