“ As a kid I always loved going over to “Mary & Bill’s” and play with Al and Mikey, it seemed mostly we played Army or G.I. Joe ( they always had the best and newest G.I. Joe merch) or swimming in their pool. I always considered them as more than cousins but best friends. You could always tell that Mike had a good heart and could get along with anyone and wouldn’t hurt a fly and I always respected that about him. I know we lost touch over the years but when I last saw him when we stopped in Alabama on the way to Florida he was the same Mikey I remember. We definitely list one of the good ones when he passed. My condolences to Aunt Mary and the rest of the family.

“ Years ago... as children. I remember Mike having his GI Joe collection. Man he would make a mess in the mud having fun with them. He was so involved in it hardly would he share . So I made the mud pies for him to blow up with the fire crackers. My condolences to his loved ones.
