“ Shannon is my only child. My baby girl changed my life the moment she came into this world. She was raised by two parents that lived her very much. Her parents shared science, philosophy, history and a direction to well roundedness. Shannon excelled in mathmatics and science. She was lived by many people, because she have love to everyone she met. She scored so high on the Air force ASFAB test, that they offered her a comission in the United States Air Force once she finished college, that they were going to pay for. Her sky had no limit. What a total waste to lose such a beautiful woman. She will continue to live in many more lives. Maybe I will be a better daddy in another life.
